# REACH 2026

Research Experience for Accelerating Careers in Health Care

**June 1 – July 24, 2026**

This eight-week paid research experience is for undergraduate students to explore and gain experience with careers in healthcare and health equity via direct mentorship and engagement with successful medical professionals. REACH scholars will participate in research projects, shadowing experiences, educational conferences, community service and social events as part of Atrium Health's Department of Surgery.

## PROGRAM DETAILS

- Open to students currently enrolled in an accredited undergraduate institution
- Applicants should have demonstrated interest in pursuing a career in healthcare that is grounded in health equity
- Applicants should have completed at least 2 years of college and 4 or more semesters *total* of science/math by June 1, 2026
- Program Stipend: \$18.85 per hour (based upon 40-hour work week)
- **Application deadline: April 15, 2026**
